When we have a dream, we need to make it happen. Otherwise, we live it not.

When we become a school of our ownself, we can then become our own school.

THE INVITE

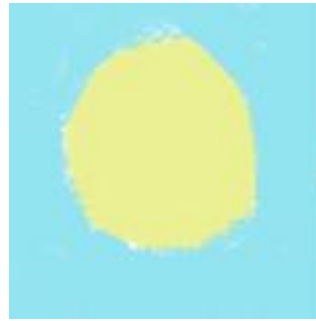

Is simple and mysterious.

It is authentic to the original documentation of BB Studio's space vision in pure text. It also contains a dialogue regarding the foundation of Bilberries Blue Summer School – the birthstone.

In between, we link the two. It's the bridge. All it says is that it is a journey. A bridge finds a way to connect two seemingly separate explorations.

*how we got from here to there, everywhere, nowhere, upside down, inside out, and eventually arriving in
the ability to re-create one's self,
through a journey from impossibilities to possibilities?*

THE STATEMENT

Frames the inquiry.

It elaborates the considerations regarding the exhibition, open studios, or the project(s).

It does have a position, and it engages the participation.

The Inside Scoop: The Journey of Open Studios through 5 Thursdays to Cambridge

Bilberries Blue: Open Studios was conceived today as we are re-creating the new form of BB Studio. Perhaps it is going to be a disassembling, and then, relocating, or maybe, some parts of BB Studio will go into different communities and ecosystems, to serve as a 3D-2D-virtual travelling exhibition libraries, a pedagogical provocation that prompts reflections.

In **5 Thursdays to Cambridge**, Bilberries Blue will figure the funding for our promise to each other to meet in Cambridge, to spend precious time together reflecting and sharing our journey from impossibilities to possibilities. As we are a school of life, and have been, and we are now at a global level, because we make it so, we want to celebrate this, and participate in research and practitioner directions of sustainable development, sustainable entrepreneurship, full inclusion, work-life integration in places of possibilities, and the daily perspective and commitment to the positive re-creation of the gift and joy of life - in homes, communities, workplaces, marketplaces - globally.

WHO

Comes with a Why.

Who can only live his or her why, what, how, for whom.

When we spend lots and lots of time together, we realise there are no positions; there is only love & friendship. And time.

Precious and beautiful time, in solitude, and in solidarity.

PEDAGOGICAL DOCUMENTATION

Is very important for continuity.

Without continuity, we would be out of context.

Without a shared context, we would not have shared a moment together, and we would not know each other, ourselves, our world.

HOSPITALITY means primarily the creation of free space where the stranger can enter and become a friend instead of an enemy.
HOSPITALITY is not to change people, but to offer them space where change can take place.
It is not to bring men and women over to our side, but to offer freedom not disturbed - by dividing lines
- Henri J.M. Nouwen

THE SPACE

Is critical for exploration.

Without exploration, we would have no sense of time.

Without time, we would not be in the present.

Without the present, we would not be able to contextualise the significance of our contemporaneous unfolding, at every moment of groundedness. We would not be able to locate ourselves in space-time.
