## THE STEWARDSHIP OF GLOCAL COMMONS

## TOK PANJANG MICROSUMMIT

Date: February 11, 2025 | Time: 11:30 AM – 3:30 PM | Venue: ALLSPICE INSTITUTE  
162 Bukit Merah Central, #07-3545, Singapore 150162

Join us for the Tok Panjang Microsummit a collaboration facilitated by Bilberries Blue, where sustainable development practitioners come together to co-create regenerative, biodiversity-driven, nature-based solutions for our planet and humanity. Embracing a transdisciplinary and ecosystemic approach, this gathering celebrates collaborative thought leadership and action for a sustainable future.

### Agenda Highlights

11:30 AM	Registration: Tour of Museum, Art Gallery & Giftshop
12:00 PM	Introduction & Lou Hei
12:30 PM	Sustainable Rural-Urban Development, Stewardship of Dignity + Culture of School of Life
12:45 PM	Sustainable Pioneers' Capsule
01:00 PM	Biodiversity: Sundaland
01:15 PM	Pesticide-Free Refugia + Food
01:30 PM	Discussion
01:45 PM	Care: Full Inclusion
02:00 PM	Discussion
02:15 PM	Biodiversity Economy: Field Research Stations
02:30 PM	Biodiversity Economy: Ecoluxury Hospitality
02:45 PM	Discussion
03:00 PM	Action Plan
03:30 PM	End

### The Five Pillars of Sustainable Rural-Urban Development

Stewardship of Dignity | Culture of School of Life | Biodiversity | Pesticide-Free Food | Care

#ACallToLove

Limited Seats Available!

Only 50 exclusive seats are available at \$200 per Tok Panjang seat.

### Sigar Valley Concept Plan

Through the entrepreneurial stewardship of Sigar Highlands Sustainable Development Centre, we endeavour in the research, innovation, education, skills development, gifting of Bilberries Blue ROSEHut methodology and its applications to the glocal sustainable development of Bandar Peranginan Sigar, Lojing Highlands, Kelantan.

Frontiering with a masterplan of 15 acres, Sigar Valley Concept Plan leads a small site development by establishing the 5 TEUWB (The Economics of Universal Wellbeing) pillars of sustainable rural-urban development:

- Stewardship of Dignity — Sigar Highlands Sustainable Development Centre
- Biodiversity — The Forest Keepers Sundaland Rainforest Seed Bank
- Pesticide-Free Food — Food Forest Farm Culinary Anthropology Nursery
- Care + Culture of School of Life —
  - 1000 ROSEHuts Concept Studios
  - Campus Zero @ Moonriver Lodge
  - Eco Escapades

## SUSTAINABLE RURAL-URBAN DEVELOPMENT

### PURPOSE:

RAINFOREST BIODIVERSITY RESTORATION + NATURE-BASED SUSTAINABLE DEVELOPMENT

### TARGET SITES:

Nakawan  
Upper Titiwangsa  
Singapore Central Catchment

This Project aims to link the Nakawan range to the Central Forest Spine to the Central Catchment Nature Reserve, to accelerate the rainforest biodiversity restoration, animal corridors connectivity and food-water-energy-soil continuity in Peninsular Malaysia & Singapore. We plan to kickstart the ESG economy by linking high potential rural-urban economies and sites. Through a consistent methodology, programme and platform, rural-urban services can be professionalised in these glocal economies, thereby alleviating rural & urban poverty, build nature and people care capabilities, with ethnoecological site-specific solutions.

Innovative nature-based solutions are the core drivers of these biodiversity small-site-developments with beautiful and meaningful nature-positive ecotourism & resorts, pesticide-free refugia farm & food, renewable energy tiny homes with co-working, co-living, co-business facilities, as well as inclusive sustainability business and community stewardship, entrepreneurship programmes, skills development and innovation schools, for the cultivation of character and applied knowledge for sustainable development.

### BUSINESS PLAN:

Identify biodiversity hotspots & develop small sites development with ESG Economy kickstarters:

1. Acquire/JV target biodiversity hotspot land (rural-periurban-urban) with high economic development potential
2. Develop nature-positive boutique 5-star hotels & resorts
3. Grow Pesticide-free Forest-To-Table Nutrition Security
4. Prototype, Design, Manufacture & Distribute integrated renewable energy affordable tiny homes
5. Community & Business ESG stewardship programmes, kickstarter kits for entrepreneurship & innovation schools for skills development

## Letter from Angel Investor

Dear Friends,

Inspired by an amazing 20-year journey to save a beautiful rainforest spanning over 700 hectares in Malaysia by the Khoo family hailing from Ipoh, I am supporting them to provide and raise further funds to secure the frontier piece – the HEART of Sundaland.

Sitting on the border of Perak, Pahang and Kelantan, Sundaland is the source of 80% of Malaysia's water and the only other home (aside from East Malaysia) to Rafflesia (the famous corpse flower!) aside from many other beautiful species including the Lar Gibbon and Fire Snail.

While we are on a tight timeline to attract another like-minded philanthropic partner, we want to start sharing the vision that the Khoo family has for this site as a global sustainable development centre via five pillars including biodiversity and care.

If you are available on 11 Feb, please grab a ticket and join us for a Tok Panjang Microsummit to introduce Sigar Highlands Sustainable Development Centre with a Peranakan feast, admiration of Peranakan antiques and curated discussions on collaborative thought leadership and action through these foundational pillars.

### BILBERRIES BLUE

Bilberries Blue is a sustainable enterprise that co-builds and offers an ecosystem of biodiversity of sustainability, resources, and funding.

The Sustainability Stewards of Bilberries Blue conduct research, develop and co-build – through collaborative knowledge-sharing applications and platforms – the ESG Economy which is guided by our proprietary model of The Economics of Universal Wellbeing (TEUWB).

Bilberries Blue is transdisciplinary: economics, business, finance, technology, care, health & wellbeing, pedagogy, arts, science, ecology, contemplation, global relations, and community.
